**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136 (a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 1632

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-13, 15022 and 26-31, drawn to methods of inhibiting or preventing Alzheimer's Disease comprising administering a DNA sequence encoding an antibody specific for the C or N-terminus of an amyloid- $\beta$  peptide, the DNA sequence, vectors comprising the sequence, cells comprising the vector and pharmaceutical compositions comprising the DNA sequence, classified at least in class 514, subclass 44.
- II. Claims 14 and 23-25, drawn to antibodies, classified in class 530, subclass 387.1.

The inventions are distinct, each from the other because:

Invention I and invention II are mutually exclusive and independent. The method of invention I does not require an antibody, as the antibody is produced via expression of the DNA sequence. The antibody of invention II does not require the method of invention I as the antibody can be made by injection of protein into a mammal and the antibody isolated from the animals blood.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 1632

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
